

Your customers demand results... We deliver them. There is one factor that always exists in every successful project, and we know what it is: It's the People.

About

Us

JEFFERSON is 30 year-old Information Technology Solutions and Services company. The corporation provides a variety of both project staffing capabilities and business solutions services. JEFFERSON is a certified, 100% owned and operated minority business enterprise and historically underutilized business (HUB). We focus on improving the People, Processes and Technology that support your business.

About

Infrastructure

Servers, desktops, laptops, handhelds, databases. Business agility calls for a stable yet flexible IT infrastructure that helps you react quickly to changing business conditions. This ultra-responsive, adaptive infrastructure needs to be consistently available, widely scalable, readily manageable, and highly secure. We have experience providing solutions in the following areas:

- LAN / WAN / Wireless Support
- Hardware Procurement
- Database Administration
- Desktop / Call Center Support
- Security
- Email Administration
- Virus Protection

Our

Approach

JEFFERSON works with clients to identify and realize potential to increase their return on investment and enhance their relationships with customers. As a solutions provider, it is our obligation to identify opportunities for cost savings and suggest alternatives to the client, especially when these options will have minimal impact on project goals and timelines. Jefferson has proven success as a systems integrator for large, complex projects because of our ability to manage and deliver solutions to our clients on time and within budget.

Whether you need a wireless plan for your organization or an inventory of your existing hardware and software, why not call the company that has the experienced people?
